

Accessibility Conversation Prompts

- 1) What types of accommodations are needed by families in your school to be engaged in their child's education (e.g., language accommodations, disability accommodations, etc.)?
- 2) How do you know what the needs are – what data do you use?
- 3) What current policies and procedures are in place for when a family needs language interpretation/translation/ or other supports to be engaged with their child's education?
- 4) Have you considered ways to make family engagement opportunities more accessible to more families in your school?
- 5) How can we help you make opportunities more accessible?
