## 2020-2021 NETWORK DATES

Issue 1: April 1, 2020

## How Ohio Schools Communicate with All Families

***"Alone we can do so little. Together we can do so much." ~ Helen Keller***

In this uncertain time, we all recognize the importance of creating strong partnerships between home, school, and the community. **Two-way communication is an important part of any partnership.** In this newsletter, we feature examples and recommendations of communication practices for communicating with all families across the district. Educators and families can use communication to share questions, answers, guidance, and feedback at any time, but especially now.
