

State Personnel Development Grant

Impact Story

Edison Local Schools

District Demographics

Students Impacted	400
Families Impacted	200
Teachers Impacted	25
Administrators Impacted	3

Successes

Our teachers have learned a lot about the science of reading, and this has definitely impacted classroom instruction. The teachers also have had the ability to be supported by coaching around reading instruction. Starting last year, we really tried to promote parent knowledge and did so through several virtual events and videos.

Sustainability

We will definitely continue with instruction around the science of reading and probably use LETRS as an onboarding tool for K-3.
