

State Personnel Development Grant

Impact Story

Riverside Local Schools

District Demographics

Students Impacted	103
Families Impacted	90
Teachers Impacted	20
Administrators Impacted	1

Successes

We have seen more family involvement in their children's learning by practicing skills at home using resources shared with them. We have seen improvement in student progress using the resources with the students that we have acquired through the grant. We have seen a positive response to the Partnership 4 Literacy committee in bridging the school-to-family relationship and understanding the needs of the families in our district.

"Stella was very interested in the material and willing to utilize it. It was very beneficial to her and easy instructions for me as a parent to use."

Sustainability

We now have a framework for connecting families with more specific literacy needs and communication between families and teachers. We have members on the committee who have a vested interest and are willing to do what it takes to help the students and families in our district.

"The work that this group has done has been phenomenal. The literacy practices created to send home with parents provided continual opportunities for children to practice their areas of deficits."
