

State Personnel Development Grant

Impact Story

Streetsboro City Schools

District Demographics

Students Impacted	650
Families Impacted	450
Teachers Impacted	65
Administrators Impacted	8

Successes

When we entered into the first year of the grant, as a school we did not have the knowledge or vision for effective reading instruction. Throughout the Language Essentials for Teachers of Reading and Spelling training, our teachers have become equipped to reach all learners in the area of literacy. Our teachers are confident in their instructional choices and practices and the impact of learning for our current students and future students is something we could not be more grateful for.

"Language Essentials for Teachers of Reading and Spelling, reading science and Structured Literacy have changed my life as a teacher! It is what I have always known in my heart to be how we should be teaching!"

Sustainability

We currently have one facilitator in our elementary building and our two literacy coaches will be trained this summer and fall. We have continued to train our tutors and new hires and plan to train future employees using Language Essentials for Teachers of Reading and Spelling. We will also use the Reading-Tiered Fidelity Inventory to make needed changes within our tiers of instruction and our services delivery plan.

"Our teachers are true trailblazers among schools in northeast Ohio, and we are proud to share all that we have learned for the betterment of all students."
