## Who Might Use The Family Engagement Core Competencies?

We envision that this document can be used by a range of family-facing professionals in a variety of contexts:

- Educators, family liaisons, and other staff in schools to assess their practice and engage in dialogue with others around family engagement topics
- Principals, professional development providers, and coaches to structure the scope and sequence of professional and continuing learning opportunities
- Faculty in educator preparation programs to develop syllabi and other course materials
- State Education Agencies to guide the development of policies, mandates, standards, and accreditation of preparation programs
- Afterschool, library, and museum staff and others in community organizations who provide families with opportunities to learn and acquire skills through their services
- Nonprofit organizations, associations, and others to develop credentialing initiatives
- Parent leaders to advocate for high-quality education in their communities and nationally
